Table C1. Top institutions in false localizing sign research

Institution	Records	First year
Ramón y Cajal University Hospital	2	2019
Walton Centre for Neorology and Neurosurgery	1	2003
SUNY Upstate Medical University	1	2026
G.B. Pant Hospital	1	2006
North Shore University Hospital-Cornell University Medical College	1	1993
Shri Lal Bahadur Shastri Medical College	1	2021
New York Medical College	1	2022
Royal Sussex County Hospital	1	2017
Amsterdam University Medical Center	1	2024
Royal Hallamshire Hospital	1	2021

Note: all values are derived from the present PubMed-dominant dataset; centrality metrics require cited-reference data and are not reported.

Table C1. Top institutions extracted from affiliation fields.

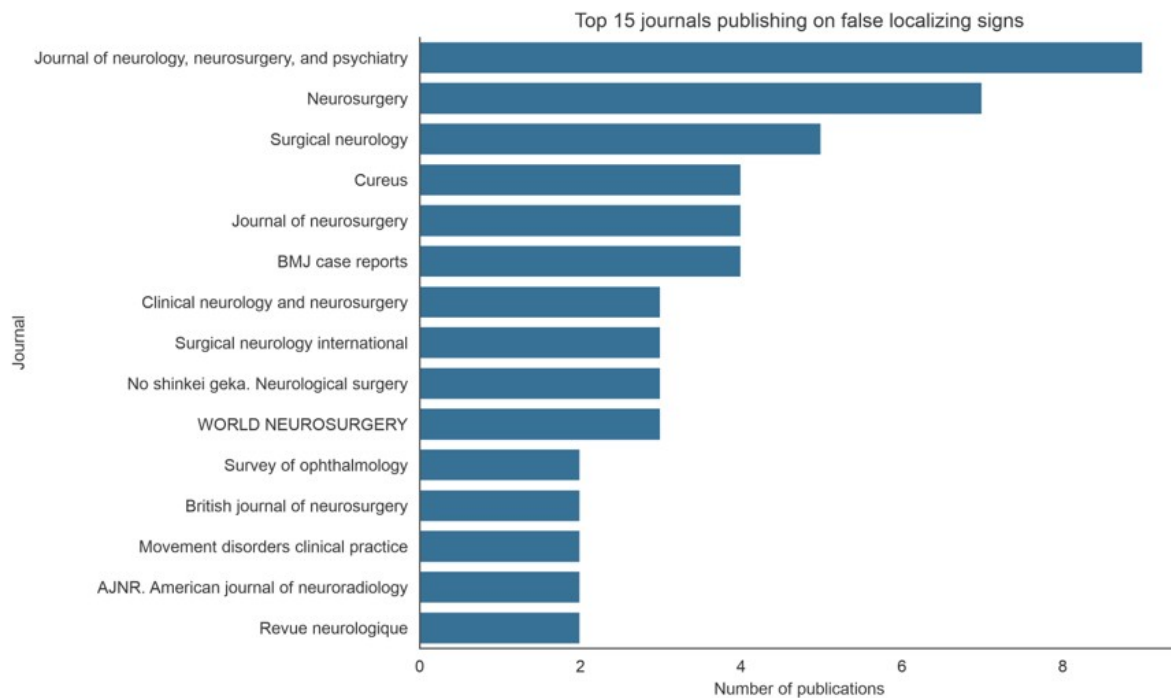

Fig. C3. Top journals publishing on false localizing signs.

Table C2. Interpreted keyword clusters from the present dataset

Cluster ID	Nodes	Cluster label	Representative terms
#0	Imaging and differential	6	MRI; CT; radiography; diagnosis
#1	Intracranial pressure and	5	intracranial hypertension; papilledema
#2	Brain neoplasms and mass	5	brain neoplasms; meningioma
#3	Cervical/spinal false localization	5	cervical vertebrae; spinal cord compression
#4	Cranial nerve and motor signs	5	ophthalmoplegia; paresis; hemiparesis

Note: all values are derived from the present PubMed-dominant dataset; centrality metrics require cited-reference data and are not reported.

Table C2. Interpreted keyword clusters based on the present dataset.
